## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 4,588,219 to Kobayashi.

Kobayashi '219 teaches Applicant's claim limitations including : a "handle housing" – including 2 and 4, a "door handle" – 17, "flush" – as shown in Fig 4, "at least one spring" – 14 and 20 where limitation of "cooperating" does not define any particular structure that might be relied upon to patentably distinguish from the structure of the prior art where part 17a can be pressed "inwardly" against spring 20's bias to release the bottom portion and move the handle into a position where it can be gripped for pulling against spring 14's bias.

As regards claim 2, Kobayashi '219 discloses "rod" at 6 which pivotally mounts the handle relative the housing.

***Allowable Subject Matter***

3. Claims 4-7 and 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 8-12 and 20-24 are allowed.

***Response to Arguments***

5. Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
